DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

Receipt is acknowledged of an Information Disclosure Statement (I.D.S.), filed May 25, 2006, which I.D.S. has been placed of record in the file. An initialed, signed and dated copy of the form PTO-1449 is attached to this Office action.

Drawings

Figures 17-20 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

Claims 1-2 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 1 is allowed because the art of record, considered alone or in combination, neither anticipates nor renders obvious an electric press device having..., a connecting mechanism provided with a nut member to be screwed with the ball screw shaft and a differential mechanism having an upper end fastened to the nut member and a lower end to a slide plate ..., the differential mechanism comprises: *a cylindrical nut-elevating sleeve having a helically advancing sliding groove provided on the outer circumferential face; a nut elevating plate having an annular portion with a worm wheel tooth provided on the outer circumferential face and a guide engagement portion to be fitted in and slidably engaged with the sliding groove of the nut elevating sleeve provided on the inner circumferential face; a worm meshed with the worm wheel tooth and capable of normal and reverse rotations; in combination with the rest of the claimed limitations.*

Conclusion

This application is in condition for allowance except for the following formal matters:

The objection to the drawings as set forth above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
